MOBIWAY™ KART is a portable two-in-one cable drum transport and unwinding solution designed to make handling heavy cable drums easier, safer and more efficient on site.

- It combines drum transport and cable unwinding in one compact, foldable system, allowing contractors to move heavy drums with less physical effort and unwind cable directly from the MOBIWAY™ KART.
- Designed for seamless integration with the Nexans DRUM, MOBIWAY™ KART can also accommodate other cable drums up to 580mm diameter using the supplied generic drum adapter.
- Its robust wheels handle varied site surfaces, while its foldable design simplifies transport and storage in work vehicles.

KEY FEATURES & BENEFITS

- **2-in-1 functionality**
  Transport and unwind cable from one unit.
- **Lever-assisted lifting**
  Reduces effort when lifting drums from ground level.
- **All-terrain wheels**
  Supports movement across varied site surfaces.
- **Integrated axle**
  Enables controlled cable unwinding directly from the MOBIWAY™ KART.
- **Compact & foldable**
  Retracts for transport and storage in work vehicles.
- **Ergonomic handling**
  Telescopic handles improve maneuverability and control.
- **Flexible drum use**
  Compatible with Nexans DRUM and suitable with other drums via adaptor.
- **Repairable construction**
  Designed for repeated professional use and longer product life.

APPLICATION

DESIGNED FOR data centres, commercial construction and large-scale residential projects
MOBIWAY™ KART is a versatile, portable cable drum transport and unwinding solution built for demanding installation environments.

IDEAL FOR projects involving **high volumes of cable, multiple installation locations and frequent drum movement**, MOBIWAY™ KART enables electrical contractors to transport, position and unwind cable directly from the MOBIWAY™ KART, reducing manual handling and improving on-site efficiency.

From **data centre power distribution and electrical infrastructure installations** to **commercial buildings, multi-storey apartments and large residential developments**, its compact, foldable design makes it valuable where space is limited, access is restricted and cable drums need to be moved between work areas.

DESIGNED TO work seamlessly with the Nexans DRUM while accommodating other compatible drums, MOBIWAY™ KART supports cable drums weighing up to 150 kg, providing a practical solution for safer, faster and more efficient cable installation across complex projects.

CHARACTERISTICS

Weight	24 kg
Maximum load	200 kg (150kg cable drum weight)
Dimensions - folded (H x W)	1230 x 855 mm
Dimensions - open (H x W)	1550 x 765 mm
Compatible drum - max width	460 mm
Compatible drum - max flange diameter	580 mm
Pack dimensions (W x H x D)	925 x 1311 x 264 mm

CONSTRUCTION & USAGE

Wheeled lever frame | Telescopic handles | Foldable support stand | Integrated drum axle | Supplied drum interface
